

Food and Customer Safety

Keep track of all your temperature and humidity needs with EasyLog. From temperature monitoring around your shop to monitoring conditions inside your fridges and freezers, we've got you covered.

Keep the temperatures in check

Lascars EL-WiFi-T is the perfect device for temperature monitoring. Don't worry about manually recording your checks as the device does all that for you. Automatically uploading all the recorded data to the EasyLog Cloud, simply use the app or any internet connected device to see all your readings.

- Temperature measurement range -20 to +60°C
- Wirelessly stream and view data via WiFi on the EasyLog Cloud, App or PC
- Use the EasyLog Cloud Apps for Android and Apple to easily setup your device.
- View and analyse multiple sensors, including graphing of historic data
- Configurable high and low alarms with indicator
- Receive email or SMS messages if the temperature parameters are breached

Humidity Control

EasyLog's Cloud-enabled EL-MOTE-TH data logger will automatically monitor the temperature and humidity around your shop so you don't have to. Set up your device with high and low alarms, so you can rely on it to notify you as soon as conditions change.

- Measures ambient temperature between -30 to +80°C and relative humidity 0 to 100%RH
- Records and uploads temperature and humidity data to the EasyLog Cloud
- Access live temperature and humidity data via any Internet Browser or the EasyLog Cloud App
- Configurable high and low alarms with instant email and text alerts, beeper alarms or LED flash alerts

Did you know? Temperatures of 75°C or above are effective in destroying almost all types of bacteria.

On-the-go Temperature Logging

EasyLog's data logging solutions proactively detect temperature excursions, allowing you to effectively manage HACCP compliance. To analyse conditions in different sections of shop we suggest using the EL-Enviropad-TC. This handheld recorder allows you to carry out spot checks, providing you with instant current temperature readings displayed on the screen.

- Temperature measurement range -270 to +1300°C. The K-type probe provided with the product measures between -100 to +700°C
- Can log over 65,000 readings per file
- Configurable high and low alarms with indicator
- Audible alarms via built in sounder

Remote Temperature Monitoring

The EL-MOTE-TC offers continuous, live temperature monitoring, connected to the EasyLog Cloud, there is no need for manual checking of the temperature. Set high and low alerts, so whenever one of these are breached you will receive a warning.

- Temperature measurement range of -200 to +1300°C. The K-type probe provided with the product measures between 0 to +200°C
- Records and uploads temperature data to the EasyLog Cloud
- Access live temperature data via any Internet Browser or the EasyLog Cloud App
- Set up alarm options for temperature zone breaches – email and text alerts, beeper alarms or LED flash alerts
- Battery life of up to 2 years

Did you know? It is a legal requirement and is good practice to check whether foods that are being held hot are at or above 63°C on a regular basis.

No matter what you need we have the data logging solution for you. Our wide range of data loggers can all be viewed on our website.
